

Fabrication

Depend on DSI for fabricated products and custom modifications.

Transfer Panels

Valve Manifolds

Pump Bases

Portable Carts

Control Panels

Custom Fittings

Adapters

Installation Support
Materials

Work Platforms

Our quality is unsurpassed.

DSI can meet the most challenging requirements in constructing sanitary systems and components.

Adding features that pay attention to detail and the unique requirements of our customers is our specialty.

A multi-disciplined staff brings all aspects of fabrication projects under one roof. We provide a "pull it all together" approach.

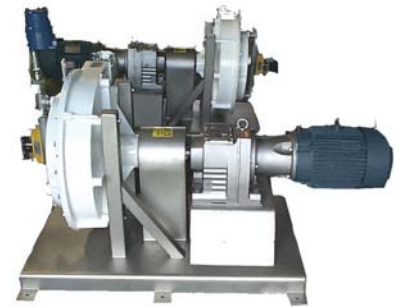

Our depth of knowledge, design experience and resources allow us to provide customers with equipment that will serve their needs well into the future.
